

Figure 1 shows the dimensions and reinforcement details of the test specimens. The specimens are arranged in two rows of eight. The top row shows specimens with a height of 300 mm, and the bottom row shows specimens with a height of 150 mm. The width of the specimens varies, with some being 100 mm and others 150 mm. The reinforcement details include top and bottom bars, and some specimens have additional vertical bars. The labels are placed below each specimen diagram.
